EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose an electronic ballast, comprising a boost converter coupled to a rectifier circuit and operable to provide a substantially direct current rail voltage; an output circuit coupled to an inverter and operable to provide power to at least one gas discharge lamp; an inverter startup circuit coupled between the boost converter and the inverter, wherein the inverter startup circuit is operable to provide a delay period between startup of the boost converter and startup of the inverter such that startup of the inverter is delayed until at least such time as the DC rail voltage approaches its steady-state operating level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Vu whose telephone number is (571) 272-1831. The examiner can normally be reached on M-F 8am-430pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
